These super-elastic crampons feature a quality twist link stainless steel chain on the sole and high quality heat treated steel points for an efficient grip. Simply put them over your footwear and tighten them with a strap. The crampons are both discreet and comfortable. Storing is easy thanks to a convenient carrying case with a belt attachment.

ICE TRACK crampons are designed for snowy and icy terrain, as well as for lawn mowing on steep terrain, logging, fishing, and hunting.

Sizes:

S (1 - 3.5) · M (4 - 6.5) · L (7 - 10) · XL (11 - 13)

These crampons are not suitable for extreme mountaineering!

These elastic crampons feature a stainless steel chain on the sole and a special, horseshoe-shaped, 14-point plate, made entirely of noble heat treated steel, providing an efficient grip. Simply put them over your footwear and tighten them with a strap. The crampons are both discreet and comfortable. Storing is easy thanks to a convenient carrying case, equipped with a karabiner and a belt attachment.

MOUNT TRACK crampons are designed for use on snowy and icy terrain by more demanding hikers and mountaineers.

Sizes:

S (1 - 3.5) · M (4 - 6.5) · L (7 - 10) · XL (11 - 13)

These crampons are not suitable for extreme mountaineering!

The PRO TRACK crampons are designed for professional use in a fast-paced environment with rapidly changing terrain – from ice to snow, tree roots, industrial grounds, and highly resistant pavement. Specifically designed points ensure excellent grip, while simultaneously reducing the risk of getting stuck in various grates, metal stairs and other industrial surfaces.

The large amount of micro-points reduces wear on industrial grounds while at the same time ensuring optimum grip on ice.

Sizes:

M (4,5 - 7.5) · L (8 - 10.5) · XL (11 - 14)

These crampons are not suitable for extreme mountaineering!

RUN TRACK crampons are aimed at outdoor runners, who like to feel safe on snowy and icy terrains. Special jagged spikes provide for an aggressive grip, while a welded twist link chains ensures strength and durability. A tight fit is guaranteed thanks to silicone rubber, which prevents movement and slippage from the sole of the footwear. The heel section is designed to help prevent skidding and ensures good stability even during descending or running downhill.

The crampons are suitable for any type of running, from jogging to sprinting. Attachment is easy, and you can store them in a convenient belt case that features a cell phone and bottle pocket.

Sizes:

M (4,5 - 7.5) · L (8 - 10.5) · XL (11 - 14)

These crampons are not suitable for extreme mountaineering!

URBAN STEP are incredibly lightweight crampons, designed for walking on snowy and icy streets. Thanks to a special twist link chain, they can also be used indoors without damaging any precious floors.

They are small and discrete, and therefore suitable for any footwear. Attachment is easy, and you can store them in a handy, attractively designed carrying case.

Sizes:

M (4 - 8) · L (8.5 - 12)

These crampons are not suitable for extreme mountaineering!
